The 'war on terror' fraud and the frame-up of the 'Toronto 18'

US patriot and peace activist, Dr. Bob Bowman, is a former USAF Vietnam combat pilot and Director – then vocal public opponent – of the Reagan “Star Wars” program. He is challenging his fellow citizens to “wake up and take back America” with the support of the peoples of the world (that’s us). His “9/11, I Call It Treason” electrified the May 2004 Toronto audience of the International Citizens’ Inquiry Into 9/11. He is on a Patriot Tour of North America to get a government that will follow the (US) Constitution, honour the truth and serve the people. His thrust is to end the occupation of Iraq and Afghanistan, prevent an attack on Iran and impeach Bush and Cheney for deceiving us into war. He will also discuss current Canadian issues related to these. See www.ThePatriots.us.

Michael Keefer, Professor of English at the University of Guelph, Ontario, and graduate of the Royal Military College of Canada, explodes the fraud and fear-mongering of the Canadian government’s ‘case’ against 18 Toronto Muslim youths, entrapped by agents provocateurs and falsely arrested as ‘terrorists.’ The theatrical arrests of 18 (mostly young) Muslims in Toronto in the Summer of 2006 reinforced media-driven paranoia that homegrown terrorists were everywhere. The unravelling of the case two years later exposes to view yet again that “The threat to Canadian society is not a bunch of Muslim boys playing paintball, it’s an ideologically driven government willing to curtail our civil liberties.” See *The Toronto 18 Frame-Up* by Michael Keefer, www.GlobalOutlook.ca.
